PREMIUM WORKSTATION OVERVIEW

The Foster Happy Hour 120cm Undermount Workstation Sink is a top-end undermount workstation sink for luxury kitchens, large islands and serious food preparation spaces. Its wide single bowl, triple recess accessory system and refined Stainless steel and PVD finish create a premium Foster sink with practical chef-level flexibility.

FREE WITH YOUR SINK

- 1 x Black Grid - 8100 600
- 1 x Bamboo chopping board - 8200 002

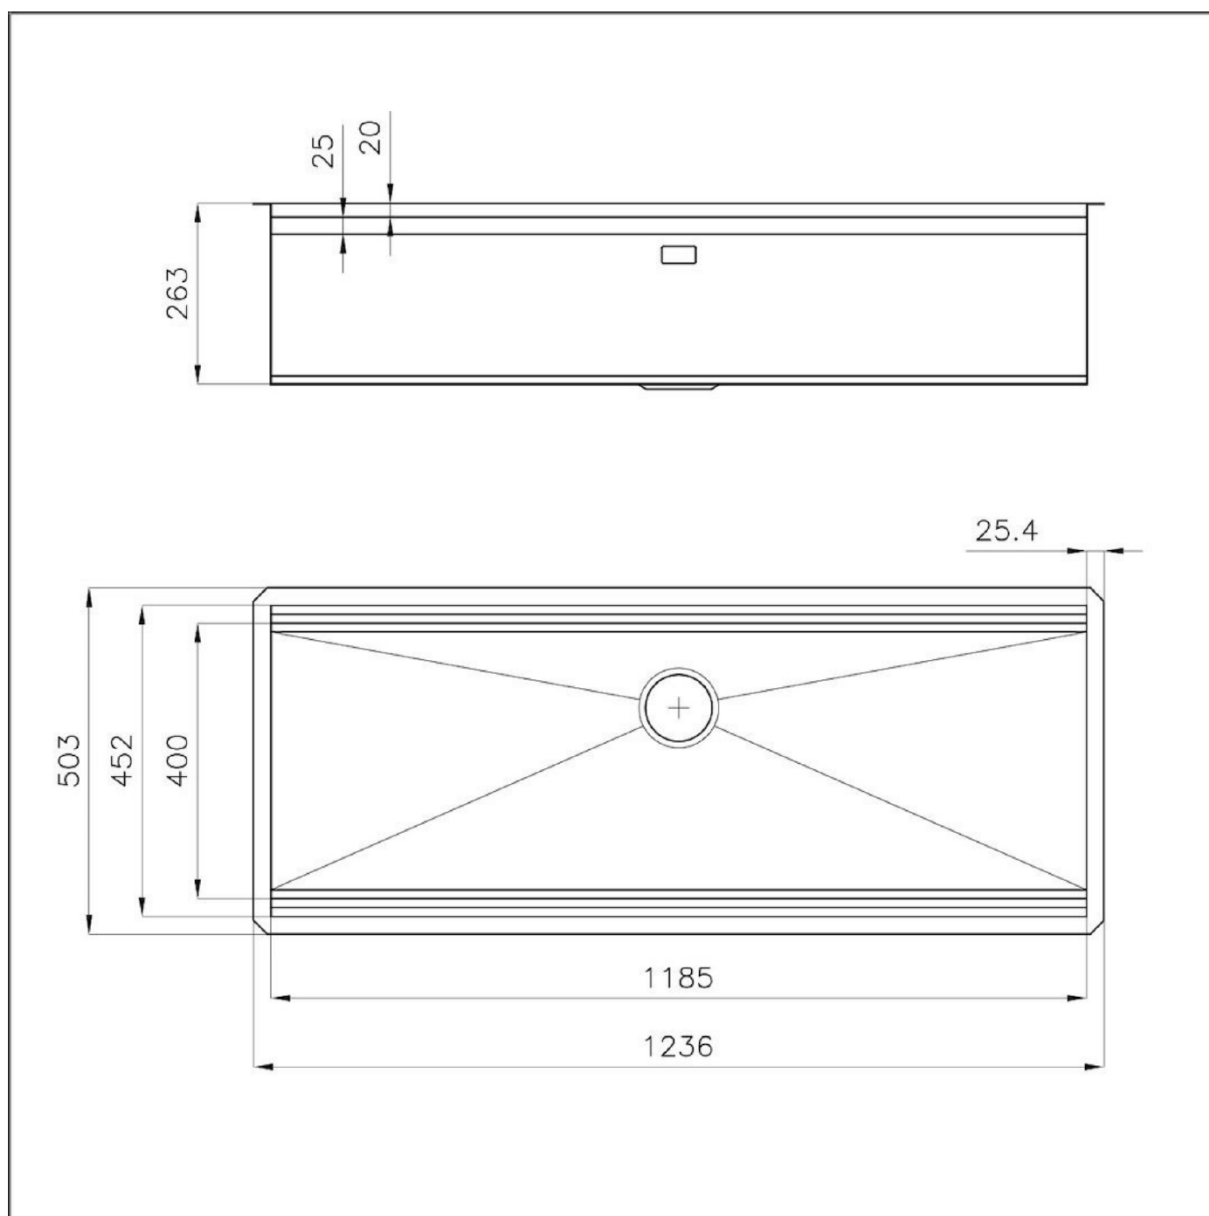

FEATURES

Triple recess sliding accessories	Three support levels allow compatible grids, chopping boards, bowls and preparation trays to slide across the sink, creating a flexible chef-style workstation.
Diamond-shape bottom	The shaped base directs water towards the waste for efficient draining while keeping the large single bowl practical for daily use.
High thickness	1 mm AISI 304 stainless steel gives the sink a substantial, durable and premium feel.
Perimetral overflow	A square perimeter overflow protects against overfilling while preserving the clean, architectural bowl design.

TECHNICAL DATA

Key dimensions, undermount cut-out and bowl data are shown below. Always verify the worktop, cabinet and installation method before cutting.

INSTALLATION NOTES

Undermount installation gives a clean, uninterrupted worktop line and makes the Happy Hour workstation especially suited to premium stone, quartz and composite surfaces.

PRODUCT DESCRIPTION

The Foster Happy Hour 120cm Copper PVD Undermount Workstation Sink is a premium undermount workstation sink for high-end kitchens, luxury kitchen islands and professional-style home preparation spaces. With a large single bowl, sliding accessory levels and AISI 304 stainless steel construction, it delivers the flexibility of a chef's station while preserving a clean architectural look. The Copper PVD finish gives this Foster Happy Hour sink a refined designer appearance suited to top-end kitchen retail, specification and project use.

PRODUCT FEATURES

- Luxury undermount workstation sink designed for premium modern kitchens.
- Large single bowl provides generous working space for cookware, rinsing and preparation.
- Triple recess accessory rail system supports sliding grids, chopping boards, bowls and trays.
- AISI 304 stainless steel construction with 1 mm high-thickness steel for a solid premium feel.
- Diamond-shape bottom helps guide water efficiently towards the waste.
- Square perimetral overflow keeps the bowl design clean while helping prevent overfilling.
- Save-space waste and siphon design helps preserve useful cabinet storage below the sink.
- Finished in Copper PVD for a refined designer kitchen appearance.
