Width	49 cm
Bowls	1 bowl
Drainer	No
Mixer holes	2 standard holes
Standard fittings	Fixing hooks, gasket, drain, overflow, siphon and boxed packing
Waste fitting	Space Push automatic waste fitting

EQUIPMENT

Black grid Milanello	One black grid is supplied for the workstation rail system, giving practical rinsing, draining and preparation space across the sink.
Space Push waste fitting	Automatic waste control with a neat push-button finish for simple draining without reaching into the bowl.

FEATURES

Additional holes available	The sink can be customised with extra holes for mixer taps, remote waste controls or soap dispensers. Suitable positions are indicated on the technical drawings.
Automatic waste fitting	A round remote control knob is supplied, making it easy to empty the bowl without putting your hands into the water.
Diamond-shape bottom	The shaped bowl base helps guide water towards the waste, improving drainage while keeping the sink practical for everyday use.
Double mixer hole	The rear tap ledge is supplied with two standard holes, allowing a mixer and remote waste control or soap dispenser to be installed cleanly.
High thickness	Built from 1 mm stainless steel for strong construction, long-term durability and a more substantial premium feel.

Perimetral overflow	A clean square perimeter overflow provides practical overfill protection while preserving the minimalist geometry of the bowl.
Save-space system	The drain and siphon are designed to preserve useful cupboard space below the sink, especially helpful where recycling systems are installed.
Space waste fitting	The stainless steel cap covers the drain neatly and helps reduce visible residue around the waste area.
Triple recess sliding accessories	Three support levels let compatible accessories slide and sit securely within the sink. Grids, trays, boards and bowls can be positioned for rinsing, draining, slicing and food preparation directly over the bowl.

TECHNICAL DATA

The following page shows the main product dimensions for the Milanello workstation sink.

Technical drawing of a rectangular box. The drawing shows a perspective view of the box. The top edge is labeled with a dimension of 14. The right edge is labeled with a dimension of 200. The box has a small rectangular feature on its front face and a small rectangular feature on its top face.
