| Type                   | Gas Hob                  |
| Material               | AISI 304 stainless steel |
| Texture                | Brushed in line          |
| Finish                 | PVD                      |
| Coloring               | Gun Metal                |
| Edge/Installation Type | Flush-mount   Top-mount  |
| Base size              | 120 cm                   |
| Dimensions             | 1154 x 560 mm            |
| Width                  | 115 cm                   |

|                 |                                                                    |
|-----------------|--------------------------------------------------------------------|
| Cut out         | Check technical data sheet                                         |
| Heating element | six burners                                                        |
| Supply          | 220 - 240 V; 50/60 Hz                                              |
| Total power     | 15.900 W                                                           |
| Auxiliary       | 1.000 W                                                            |
| Semirapid       | 2 x 1.750 W                                                        |
| Rapid           | 3.000 W                                                            |
| Dual            | 2 x 4.200 W                                                        |
| Power settings  | 9 power settings per zone                                          |
| Ignition        | Electric ignition under knob                                       |
| Gas type        | Tested for installation with natural gas, LPG nozzle set included. |
| Safety          | Safety valve with quick-acting thermocouple                        |
| Grids           | Cast iron grids and enamelled burner covers                        |

## EQUIPMENT

2 x Cast iron Wok support

---

## FEATURES

56 cm deep

56 cm deep. An increased dimension synonymous with great functionality, which distinguishes the Milano Lusso series.

Aeo burners

The AEO burners guarantee up to 25% energy saving compared to standard burners. All models are designed with The Dual burner with 2 independent crowns, controlled by a single knob, delivers from 1 to 5KW, a power that can only be found in professional models.

Gun Metal

The Gun Metal finish is obtained by treating steel with a physical process called PVD (Physical Vacuum Deposition) which deposits particles of noble metals on the surface. The result is a unique and refined aesthetic effect, and an improvement of the mechanical properties of the steel which is more resistant to impact and scratches.

Safe cooking

All Luxair gas hobs are equipped with safety valves. They shut off the gas supply very quickly if the flame accidentally goes out.

Special burners

Many Luxair hobs are equipped with special burners, with two or three rings of fire that greatly increase the power delivered and the heated surface. In the DUAL models the two fire crowns also have independent ignition, making these burners perfect for both intensive and delicate cooking.

Ultra-flat hob

Design meets functionality in the the ultra-flat models. Elegant grids that form a generously sized overall surface.

Under-knob ignition

The utmost freedom of movement with electronic under-knob ignition, a common feature of all models that allows a one-hand ignition of the burner.

XXL grids

The weighty enamelled cast iron grid has extraordinary dimensions, 33x25 cm, with a working surface up to 50% bigger compared to a standard cooker hob. Now you can use all the burners at the same time even with large cookware.

## TECHNICAL DATA

**FT**

**FTS**

This hob can be installed either flush-fit, set into the worktop, or top-mounted, sitting on the worktop surface.
