PRODUCT DESCRIPTION

The Omega Plus mixer tap is a premium Foster kitchen tap designed for modern sinks and workstation layouts. The Omega Plus design combines a clean vertical body, rotating barrel and extractable shower head, giving the sink area extra reach and flexibility for rinsing, filling and everyday preparation.

Built from brass with ceramic disc control, Omega Plus is made for smooth single lever operation and reliable daily use. The 360 degree rotation gives generous movement around the bowl, while the wide choice of finishes makes the Omega Plus range easy to match with stainless steel, gun metal, copper, gold, matt black or sunset kitchen schemes.

AVAILABLE FINISHES

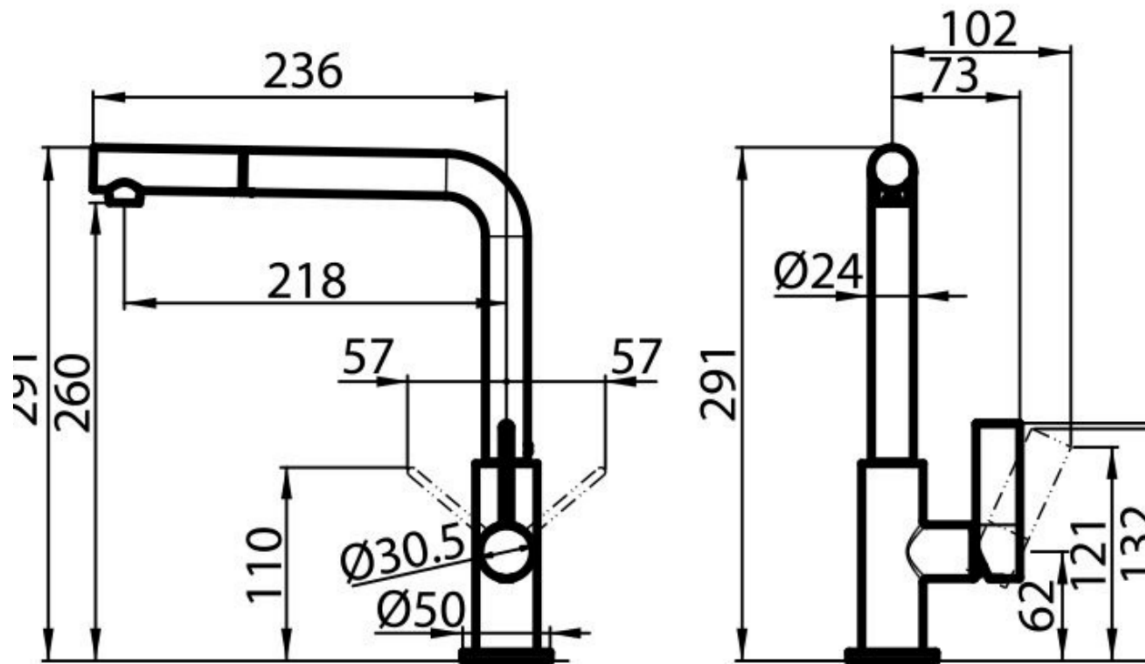

FEATURES

Extractable shower head	The pull-out shower head gives better reach for rinsing pans, cleaning the bowl and handling everyday preparation tasks.
Full rotation	The 360 degree rotation provides excellent flexibility across the sink, especially on larger bowls and workstation layouts.
Strengthening plate	The 50 mm reinforcing plate helps the mixer remain stable on compatible sinks and worktops.
Ceramic cartridge	Ceramic discs provide smooth lever control and dependable everyday operation.
