

Please note the motor can be turned 360 degrees so that the exhaust can face any direction

Ducting - Our slimline motor is designed with a rectangular ducting system. Please note as this ducting is rectangular and not round, it will have different dimensions.

Our rectangular ducting is 220mm x 90mm

Please remember this hood must be installed on a minimum 6" ducting. If you are using rectangular ducting, this must at least the same airflow area of 6" round ducting.
