

# Arcus 83cm induction Hob Extractor – Charcoal Filters

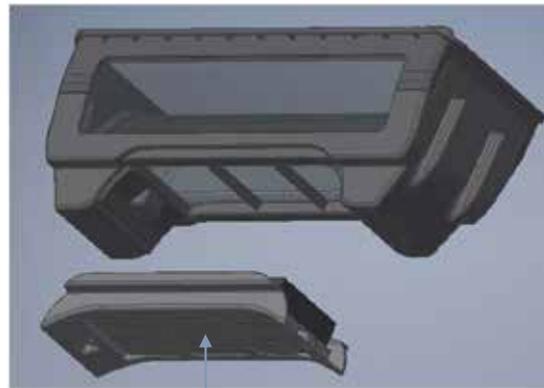

Long life washable carbon filter set - Installed below the suction/extraction area and on the bottom of the metal grease filter.

Long Life STARTER KIT

Grease filter  
Motor  
Long Life filter

Plastic + long life to add and cover the bottom part of the filter

## Instructions:

- Remove the metal filter grid
- Place the smaller charcoal filter in to the bottom part of the filter grid.
- Place the 2 larger filters over the top of the motor. There are grooves to fit the filter in place.
