

LUXAIR™
EXTRACTION WITH ATTRACTION

400-600-800 Control Instructions
Radio Frequency

Programming/Pairing

1. Turn off power to hood at the mains.
2. Whilst the power is off, press any button on the remote and keep holding down.
3. Turn the power back on whilst still pressing the button down and hold for at least 10 seconds.
4. Once 10 seconds has elapsed, let go of the button and then press any button again once more.
5. The above must be performed with 60 seconds of turning power back on to the hood to re-pair this remote control.
